

Multi-stack Doors

**Perth
Window & Door
Replacement Company**

Ask us how
'Low E Glass'
can pay for itself
by reducing your
energy bills.

Multi-stack doors, manufactured by Hi Lite Aluminium Products, are a lifestyle choice. They slide neatly away, one behind the other, to create a fluid transition for your indoor/outdoor entertaining. When closed, they create a wall of glass up to 6.2 metres wide. Imagine the light and views. Multi-stacks are available in 3 and 6 panel configurations; the panels come in a variety of widths. The 3 panel doors can open to the left or to the right. For added safety, multi-stack doors are fitted with security locks. A flyscreen or Amplimesh security door can also be added. A common key can be supplied for sliding and security doors.

Glass can be selected from a number of high-performance options, which cater for Australia's extreme climate and energy rating requirements.

A variety of opening configurations to suit your needs

Multi-stack sliding doors provide easy alfresco access

Extend the inside out and invite the outside in with Multi-stack doors

Create a beautiful entrance by converting tired old windows to functional Multi-stacked doors
