

Perth Window & Door Replacement Company

Ask us how
'Low E Glass'
can pay for itself
by reducing your
energy bills.

Sleek styling, great looking and simple to use

Sliding Doors

Sliding doors, manufactured by Hi Lite Aluminium Products, have a superior build quality. The doors glide quietly and smoothly on a non-corrosive roller system. They have a strong, durable, aluminium frame designed to keep the weather on the outside. Better still, they look great. Hi Lite Aluminium sliding doors are fashionable and cost-effective. They are perfect for alfresco access, plus they allow your home to be filled with natural light. These doors cope brilliantly with the most demanding of West Australian conditions.

Glass can be selected from a number of high-performance options, which cater for Australia's extreme climate and energy rating requirements.

Sliding doors can open up an area and bring the outside in
