

Thermally Broken Sliding Window

Thermally Broken Sliding Window

Minimise the transfer of heat and cold with the Carinya Comfort Sliding Window.

Key Features

- Exclusive handle located on the lock stile for ease of access and cleaner lines
- An internally concealed weather flap also reduces air and water infiltration and minimises insect intrusion through the drain holes
- There is also a range of attractive interlock options to meet a wide variety of wind load requirements up to the most demanding weather conditions
- Utilises a strong 'Double Strut' thermal break construction for maximum strength in the sash
- Excellent 'Uw' values down as low as 2.5 W/m2-K
- Integrated screening options available
- Sash features internal and external weather seals for maximum performance
